# Spottune Cloud

Manage each of your store locations across countries from one centralised platform. The Spottune Cloud system allows for complete flexibility, usability and scalability. Regardless of your location, you can manage and synchronise music in all your stores in just a few clicks.

# Our unique OmniSound Technology

Spottune has a unique **OmniExperience™** technology that provides outstanding sound quality. The omnidirectional feature allows the speaker to deliver balanced audio frequencies throughout the room, providing consistent sound even at low volumes. One speaker can cover an area of 75 square meters, ensuring that every customer receives an equally pleasant audio experience regardless of their position in the room.

Excellent sound in 2,900+ locations
